

WISCONSIN BOYS ARE COMING HOME

MEMBERS OF THE THIRD REGIMENT AT NEW YORK

Sick Men From Porto Rico Arrive On Transports—Their Landing Delayed to Permit a Demonstration In Honor Of Pennsylvania Troops—A Good Record.

New York, Oct. 19.—One hundred men of the Third Wisconsin volunteers came in on the transport Minnewaska, yesterday morning, and left in the afternoon. They are on furlough from their regiment. Part of the men left for the west over the Pennsylvania and others went on the Erie.

The homesick men hoped they would get ashore when the Minnewaska docked last night, but because Governor Hastings and other Pennsylvanians wanted to give a demonstration for the 1,000 Sixteenth Pennsylvania men who were aboard, the entire body of men were kept over night on board ship. The men had all been paid off in Porto Rico, and had plenty of money.

A number of enterprising newsboys and vendors did a thriving business in pies last night. They sold the soldiers five cent pies at 50 cents apiece, and were able to dispose of all their stock at that price.

The work of unloading the transport began at daylight this morning. Most of the men at once went to the nearest restaurants. Many of them wore their slippers which they had obtained in Porto Rico, and their feet were nearly frozen before they could find shoe stores. It was raw and chilly today, and the contrast with the balmy, hot climate they had left was most striking and uncomfortable.

Saw service in Porto Rico.

A group of the Third Wisconsin men told of their exercises in the Porto Rican campaign. One of them said:

"We may not have seen much fighting, but let me say that for an hour before the Spaniards retreated at Coamo things were just about warm enough to suit the most warlike. Reports that the Spaniards were entrenched at Coamo came thick and fast, and General Miles finally ordered us to move on the town. There were three regiments of infantry—the Sixteenth Pennsylvania, the Second and Third Wisconsin—and two batteries of light artillery.

"We were spread out in a huge crescent, with the ends pointing toward the town. Owing to the nature of the ground we advanced in single file. Absolute silence was the order. Suddenly, as we reached the top of the hill overlooking Coamo, we were met with a heavy fire. It was unexpected, but the men stood it like regulars. It was impossible to form a line of battle, so the orders came to fight Indian fashion, which we did, loading, firing, taking advantage of cover, but all the time pressing onward. The Wisconsin boys were on the extreme left.

A Successful Manoeuvre.

"As the crescent advanced the ends closed in and finally joined, exposing the Spaniards to an ugly cross fire. That was enough for the Spaniards, and those who hadn't already retreated, threw down their arms. We captured about 160 officers and men. Our loss in the engagement was one killed and five wounded, and the Spaniards, as far as we can learn, lost about forty killed and wounded.

"After Coamo the Wisconsin troops got into a fight at Abonito, with a loss of four men killed and wounded. The artillery, however, did the work at both Coamo and Abonito.

"It the Spaniards had made a brave stand at Coamo and Abonito the American loss would have been heavy, for the approaches of both towns were literally veined with rifle pits, protected by barb wire."

BIG FAILURE IN PITTSBURG.

German National Bank Closes Its Doors, Liabilities Are Heavy.

Pittsburg, Pa., Oct. 19.—The German National bank, one of the biggest financial institutions in the city, closed its doors Tuesday. The failure of A. Grotzinger & Sons, tanners, precipitated the crash.

It turned out that A. Grotzinger, who up to Saturday was president of the bank, had overdrawn his account \$115,000, and has notes lying in the bank aggregating \$160,000.

O. C. Bergdorf, the cashier, who was discharged four weeks ago, owes the bank, it is said, \$400,000. The deposits aggregate \$2,000,000. All sorts of rumors are flying around, and it is said that prominent politicians identified with Senator Quay were allowed to draw large sums of money from the bank by the ex-president and ex-cashier.

Soldiers in a Saloon Fight.

Newport News, Va., Oct. 19.—A riot occurred at a saloon in Phoebus late last night. Five regulars from Fort Monroe were shot, one being killed and another mortally wounded. No civilians were hurt. The names of the soldiers and other details are unobtainable. It is understood that the men were shot by the proprietor or employees of the saloon, which is owned by P. F. Egan. After the shooting soldiers set fire to the saloon. At midnight the town was in a turmoil, the civil authorities being powerless to preserve order. Later the rioters were arrested.

FIGHT FOR THREE HOURS.

"Blackey" Clark, the Leader, Fatally Wounded—The Capture Is Regarded as One of the Utmost Importance.

Wichita, Kan., Oct. 19.—After a desperate fight, lasting nearly three hours, Sheriff Mackey of Salina county, Kan., and his posse of five deputies on Tuesday made the most important capture of bank robbers that has been made in years. The officers believe they have the gang that has been causing so much trouble all over the state, especially the western part, within the past two months.

"Blackey" Clark, one of the robbers, and who is thought to be the most noted crook, was fatally shot in the back, and others of the gang were wounded. Deputy Sheriff Lykens was hit in the arms by a bullet.

Each party was partially sheltered by trees, and over 200 rounds of ammunition were used. The battle took place in the edge of the timber just out of Salina, where the robbers, who were mounted, had been to purchase food and ammunition. Sheriff Mackey called to the robbers to halt, but they returned his request with a volley which felled the sheriff's horse. He got behind the dead animal and the officers opened fire.

"Blackey" Clark was the first one hit, and with a shriek he fell. His comrades, under a hot fire, rushed out and brought him to a place of safety, where he lay until the robbers finally surrendered. The battle commenced shortly after breakfast. Finally the officers were reinforced by a posse of citizens, and the robbers, seeing it was useless to fight, surrendered.

Those captured and their injured are:

John Ellis, alias Davis; shot in left shoulder and right hand nearly shot off.

"Dynamite Dick," an Indian; shot in left leg and will lose his right eye from powder burns.

Jim Black, alias Stephens, alias Mackey; uninjured.

John Walker, shot in the breast, probably fatally.

"Blackey" Clark, the leader, fatally shot in the back.

The prisoners were taken to the Salina jail, but will be brought here soon. The officers believe they have trapped the boldest gang of bank robbers that ever invaded the state.

They confessed after arrest to having held up the banks at Victoria and Walker, in which over \$10,000 was secured. It is also thought they are guilty of several other bold daylight bank robberies which have been perpetrated in various parts of the state this fall. In all of these robberies there were five men, and their description tallied with these.

Black is a small, dark-complected man, and, although fatally injured, he made a most desperate attempt to escape while being taken to jail. In every instance where they robbed a bank, so complete had been the surprise that the robbers always escaped. They have spread terror for the last two months. There are several rewards out for them, amounting to over \$5,000.

Sheriff Mackey also thinks it is this gang that has been blowing open depot safes along the Union Pacific railway in Kansas recently.

Fire Chiefs in Session.

St. Louis, Mo., Oct. 19.—The twenty-sixth annual convention of the International Association of Fire Engineers, composed of active and retired fire chiefs in the United States and Canada, convened in this city Tuesday. About 400 delegates are in attendance. The opening session was held at Masonic temple. Mayor Zeigenthal welcomed the chiefs to St. Louis. After President A. J. Kennedy of New Haven, Conn., had responded the convention organized for business. Arrangements have been made to entertain the ladies during the sessions. Tuesday was fire chiefs' day at the St. Louis exposition.

CAPTAIN HANSON RECEIVES ORDERS

WILL MUSTER COMPANY OUT NEXT FRIDAY

Captain Andrus Sends Word Here Last Evening to This Effect—Men Will Be Paid In the Armory—Nearly Six Thousand Dollars To Be Distributed Here.

Captain Hanson, of Co. A, First Wisconsin regiment, received that long looked for message last evening. Captain Andrus, the mustering out officer now in Milwaukee, notified him that as the matter now stood, he would be here next Friday for the purpose of mustering out the members of Co. A. He will be accompanied by Major Bradley, the examining physician, as well as by a paymaster who will pay the boys in the armory the very minute they receive their discharge papers.

Pay Steps To-Day.

To-day the extension of furloughs ends, and to-night the pay of every soldier boy stops.

When the paymaster arrives here he will take into the armory with him about \$6,000 in cash. The privates will have between \$80 and \$85 each coming, the difference being in the clothing allowance. Corporals will each receive about \$90, while in the neighborhood of \$95 is coming to the sergeants.

First Lieut. Baldwin will have the pleasure of drawing about \$350, while Second Lieut. Bloedel will no doubt have to content himself with about \$300.

Captain Hanson has a goodly sum coming, but the present indications are that the government may charge him up with several missing equipments that have been misplaced since the company left, and which is no fault of his.

Will Take Time.

It will take all day long to muster out the members, and long into the night. All members who are not present, except those sick in bed, will not get their money, and must go through a lot of red tape with the army officials at Washington before the settlement can be made. Those sick in bed, however, will be called upon and examined by the army surgeon, and then be mustered out and receive pay as the rest of the members.

May Rejoin the Militia.

It is to be hoped that immediately after the company is mustered out a call will be issued for a meeting to reorganize the National Guard, it appearing that the city should certainly have a military company.

The law is so changed that any person who enlisted and served as a regular in the United States army, can become a member of the National Guard for a term of one year.

Accounts Said to Be Wrong.

Rushville, Ind., Oct. 19.—James K. Mattox, treasurer of Rushville, is said to be short at least \$2,500 in his accounts. That amount has been reported by C. S. Shultz, the expert employed on the books. The shortage is said to be due more to faulty book-keeping than to any other cause. Treasurer Mattox has secured his bondsmen by deeding his property to them. What action will be taken on the shortage has not been determined.

Indians Brought to Time.

Wichita, Kan., Oct. 19.—The various Indian agents in Oklahoma have followed in the footsteps of Major A. E. Woodson, agent for the Cheyennes and Arapahoes, and refused to issue rations to the Indians unless they send their children to the government schools, and the schools are filling up. An Indian loves his government rations, but he dislikes to send his offspring to a government school.

Gen. Lawton in New York.

New York, Oct. 19.—The government transport Michigan, which left Santiago Oct. 12, with Brig.-Gen. H. W. Lawton, governor of the military department of eastern Cuba, arrived off Sandy Hook last night. She was unable to enter the harbor, as the electric lights on the buoys were all put out by the storm. She anchored and came up to the city today.

PAGEANT OF PEACE SEEN AT CHICAGO

GREAT PARADE THROUGH THE STREETS THIS MORNING

Vast Crowds Witness the March, In Which the President, His Cabinet, Distinguished Soldiers and Sailors and Foreign Diplomats Take Part—A Fine Spectacle.

Chicago, Oct. 19.—[Special].—Between lowering clouds, through muddy streets the great jubilee parade moved today. The streets were packed with people anxious to get a glimpse of the president and the heroes of the army and navy and other distinguished persons.

When the signal gun was fired announcing the start of the parade, a cheer went up and spread all along the line of march. As the president's carriage appeared the reviewing stand a presidential salute was fired from the reproductions of Dewey's fleet which had been directed in the rear of the stand. As the roar of the guns had died away the tars stationed on miniature battleships shouted "Remember the Maine" and the cry was taken up by the crowds in the streets.

The police led the parade, followed by one thousand veterans of the civil war. Then came the various semi-military and civic organizations. In this division were the president, Gen. Miles, Gen. Shafter, and other distinguished war veterans, members of the diplomatic corps, mayors, congressmen, governors, and other guests of the city. The veterans of the war with Spain brought up the rear. When the reviewing stand was reached a second time the president's carriage and mounted the stand and reviewed the grand pageant.

Chicago, Oct. 19.—War's heroes, the makers of peace, were formally bidden to its jubilee amid surroundings and circumstances of pomp and ceremony that were dignified by the presence and approval of a great assembly that filled the Auditorium to overflowing Tuesday morning. The guests were Mayor Harrison, Archbishop Ireland and Emory Speer, and to the list should be added President McKinley, who spoke informally and gave what was needed to make the event broader than any section of the comprehensive than any party as wide as all religions. But without the few extemporaneous remarks of the president, all of the United States were represented in the pageant of palms for the procession of peace. Politics was set aside when George R. Peck, as chairman, paid a graceful tribute to the democratic mayor of Chicago and led him by the hand to the speaker's stand. Religion and sectionalism were made symbols of union in patriotic devotion and effect when John Ireland, priest of the mother church and soldier of the union, shared the honors of chief spokesman with Emory Speer, Georgian and ex-confederate.

FORECAST OF WEATHER

Chicago, Oct. 19.—[Special].—Forecast for Wisconsin:

Approves of Twelve-Inch Guns.

Washington, Oct. 19.—Capt. Charles O'Neill, chief of ordnance, in his annual report to the secretary of the navy, says that up to this time the 12-inch gun, such as are mounted on the Oregon class, have been regarded as the best type for a battleship, but the development of the 12-inch gun has been so great and its power so much increased, that hereafter it will probably be the maximum caliber, supplemented by an auxiliary battery of six-inch quick-firing guns in casemates, with a secondary battery of six and twelve pounders.

Since the annexation of Hawaii its inhabitants are free to come to these ports, and it is the intention of the board of health to prepare a report for submission to the coming legislature which will suggest safeguards against the spread of the disease to these shores.

Lashed Out of the Mud.

Thomas Grant, editor of a trade paper in San Francisco, in a fit of despondency determined to end his life. Going out to Bernal Heights, he stabbed himself several times with a penknife and lay down to wait for death, which did not come. Then he walked to a near-by creek with a muddy bottom and threw himself in. He quickly sank to his waist and was slowly going deeper when he was observed by some one, who called an officer. The policeman, an expert with the lasso, got a rope and with one dexterous throw got the line over Grant's shoulders and hauled it tight over the man's arms before he could throw it off. Then he was hauled ashore, partially divested of his coating of sticky mud, and sent to the hospital, where he is now in a more cheerful frame of mind.

Plenty More Days.

In Spain the people take no note of time, nor even of his loss. Everything is to be done "manana," tomorrow. A wealthy Englishman, who had long lived in Spain, had a law suit. He pleaded his cause in person and knowing the customs of the country, won his case. The victory cost him three days of trouble and expense, so that when the judge congratulated him on his success, he replied, "Yes, that's all right; but it has cost me three days, and time is money. I am a busy man, and these three days are lost forever."

"Oh! you English," answered the judge, "you are always saying that time is money! How are you to get your three days back? I will tell you, take them out of next week; surely there are plenty more days to come!"

Was Exiled by Weyler.

Havana, Oct. 19.—Aurelia Castillo, a Cuban lady who was expelled from the island by Gen. Weyler, has returned to Havana. She was enthusiastically welcomed by the Cubans.

HELPS AMERICAN COMMISSIONERS

AGUINALDO'S AMBASSADOR CONFERS WITH THEM

Philippinos Are Moderate In Their Demands—All They Ask Is That They Be Not Returned to Bondage And That the United States Establish a Protectorate.

Paris, Oct. 19.—[Special].—The presence here of Aguinaldo, the representative of the Philippine insurgents, has contributed somewhat to strengthen the position of the American commissioners relative to the final fate of those islands. He has made clear the attitude of the insurgents towards Spain and the United States. They fear above all things any restoration of Spanish authority through the lenience of the American commission. In fact, they deny the claim of any such commission to dispose of their lives and liberties. They hold that America must not sell them again into bondage. That is what they dread, and until they are assured of this their only course is to maintain an observant attitude, always gratefully ready to acknowledge the protectorate of America, and with that, the control of all foreign affairs by the American government as the essential condition of the protectorate. They fear being deserted by those whom they look upon as their saviors, and they resent the very possibility of having their freedom again bartered away in a conference to which they are not admitted as a consulting party.

TOO MUCH RED TAPE

That Was the Chief Fault at the Jacksonville Camp

Jacksonville, Fla., Oct. 19.—[Special].—The war investigation commission resumed the examination of witnesses this morning. Col. Campbell, of the Ninth Illinois, said the food and supplies were good. He thought that there was too much red tape in the army, but did not know of any suffering caused by it. Col. Bryan will be called tomorrow.

A CUBAN ELECTION.

It Was Conducted in the Style Formerly in Vogue at the South.

New Orleans, Oct. 19.—[Special].—A recent arrival from Guantanamo says the recent election there was a farce. Cabrera caused the arrest of all men who would not vote for him, and many of his strongest opponents were killed.

All Killed or One.

The Mexican soldiers, embittered by the loss of their comrades, showed no quarter, nor did the brave Timoches ask it. Of the tribe of seventy-two Timoches but one man exists today. Two hundred and sixteen Mexicans were killed and 310 wounded, among whom were several officers. Santa Teresa escaped during the engagement. Several weeks elapsed before quiet was finally secured in Chihuahua, but to this day there are sullen looks and defiant words seen and heard when "the uprising of the Timoches" is spoken of. The church has been rebuilt and is at present well attended by the newcomers to the section.

The Heaviest Railroad Train.

A locomotive of the Pennsylvania railway recently drew a train about three-quarters of a mile long, made up of 180 loaded coal cars, from Altoona to Harrisburg, 132 miles in twelve hours. The weight of the train behind the tender was 3,212 tons, the locomotive weighing 104 tons. This is said to have been the heaviest train ever moved a long distance by a single locomotive.

FOR THE PUBLIC ENTERTAINMENT

THOSE WHO WERE AT OPERA HOUSE HAD A GOOD LAUGH

The Performance Was Not Faultless, But Was Pleading In Many Features—The Salisbury Stock Company—Concert By the Boston Ladies' Symphony Orchestra.

There is much of absurdity but little probability in Donnelly's "A Pair of Jacks" given at the opera house last evening. It is a story of the escapades of Dr. Jacks and Lawyer Jacks, twin brothers, among the occupants of a young ladies' seminary, and many of the situations are grotesque and laughable, though strained. The dialogue is extremely frothy, interspersed with rather more of the slang of the day than is necessary or edifying. This pleases the galleries, no doubt, but is not at all calculated to impress the intelligent theater-goer favorably with the company. The singing was up to the average of non-musical companies; the dancing was graceful and pleasing, and the costuming was all that could be desired. Miss Lorain Deaux was easily the star of the company, and her sprightly acting as Zetta took the audience by storm. Less was made of the two Jacks than might reasonably have been expected.

The performance did not begin until nearly nine o'clock. The audience for the most part came late, a fault peculiar to Janesville audiences, and the management waited till all became seated before the curtain was rung up. Those who were in their seats promptly on advertised time were compelled to entertain themselves as best they could while the laggards came sauntering in from a half to three-quarters of an hour late. All performances should begin promptly at the advertised time, and those who delay their coming should be compelled to suffer the consequences. Nothing will contribute more towards keeping people away from a theater than a tardy beginning of the performance.

The Salisbury Company

The next attraction at the opera house will be the Salisbury stock company, which comes here after playing to the longest season ever known in the history of Milwaukee. The company is an excellent one. The Chicago Chronicle's dramatic critic, speaking of the entertainers in this combination, says:

There is a young woman in Salisbury's Stock Company, now playing at the Davidson theater in Milwaukee, who is going to make her mark some day if I am not mistaken. Just a glimpse I caught of her the other night in the second act of Sue convinced me that her present managers have a prize in the person of Eleanor Robeson who is playing the queer sentimental heroine of Bret Harte's play. Miss Robeson is an actress, I understand, with practically no past. She is a youngster, blessed with good looks, but she is not a beauty. She has the rare gift of real histrionic ability. Everything she did in that strangely effective scene with the drunken sheriff was truly consonant with the character. Annie Russell lent all the sweetness of a singularly engaging personality to Sue, as we first saw her at Power's theatre, but she did not make as much of the dramatic possibilities as Miss Robeson does. Yet they've been raving over Miss Russell's Sue in London. No doubt Miss Robeson will come to Chicago one of these days and then you will understand why I was surprised to find an unknown of such astonishing talent in a Milwaukee stock company. But do not imagine that I am sneering at Mr. Salisbury's stock company, which has been entertaining Milwaukeeans for months at the Davidson. It is a very strong organization—better than any Chicago has produced yet in response to the new demand for the stock company—better collectively in particular. The setting of Sue, which I saw the other night, was just as good as that of the Frohman production, and the acting of the bit of the play I saw was better than that of the company in which Joseph Haworth glowered and ranted.

It is, perhaps, anomalous to announce the opening of the people's lecture course with the consent of the Boston ladies' symphony orchestra, for a concert is not a lecture in any sense of the word. The entertainment of last evening at the Congregational church was, however, well worth attending. The instruments were well attuned, and the performers were artists of superior attainments. The program was more classical than popular, but had enough of the latter element to make it attractive to those who do not assume to be classical in their tastes. The vocalist of the organization, Miss Virginia Knight Logan, proved to be an accomplished artist with a voice well trained and a conception of harmony and expression rare even among professionals. Her selections were keenly enjoyed, and she was complimented by the heartiest of encores. The instrumental selections that composed the greater part of the

The People's Course.

program were highly enjoyed, especially the violin solo of Miss Mabel Beaman and the cornet solo of Miss Anna Burroughs. Both are artists of superior ability, and won the most flattering encomiums.

DOES HIS DUTY AS HE SEES IT

Governor Scofield Will Not Shirk His Own Conscience.

Upon all the important reforms of the day Gov. Scofield has been active and untiring. He has never been afraid to express his convictions upon any subject nor to take any official action that his judgment commended, no matter what the political outcome might be. Some of his friends warned him that to veto the sleeping car and express bill—although the attorney general's office had reported them to have been illegally enacted—would do him great injury, politically. He replied: "I have no desire to continue as the governor of Wisconsin if I retain that office I must sink my own judgment and my own conscience. Whether I have the respect of other people or not, I must retain my self-respect, and I can only do that by performing my duty as I see it."

NEW ENGINES FOR ST. PAUL

Some Mammoth Locomotives to be Used For Freight Traffic

The Chicago, Milwaukee & St. Paul Railway company has just received a number of new freight engines. They were built by the Baldwin works and there are ten of them. They are now being used on freight runs out of Milwaukee, and have thus far proved a success.

The engines are compound ones weighing eighty tons each. They have five drive wheels and are powerful machines. They will probably not be sent here, but some of the engines, whose runs they have taken are expected to take runs out of this city in the near future.

ACTIVE WORK IN STATE CAMPAIGN

REPUBLICANS ARRANGE FOR MAMMOTH MEETINGS

Mr. La Follette Will Arrange Dates For a Few Addresses—Senator Spooner In the Western Part of the State—Milwaukee Will Have A Great Closing Rally.

Chairman J. B. Treat, of the republican state central committee announced yesterday that Robert M. La Follette, of Madison, would take the stump for the republican party in a short time, says the Milwaukee Sentinel. There has been a big demand for speeches by Mr. La Follette, but he has been busy with his law work and could not get out earlier. Yesterday afternoon Mr. Treat received a letter from Mr. La Follette stating that he would either write to him within a week or come to Milwaukee personally to arrange dates for speeches. Mr. Treat said last night that Mr. La Follette was in Barabon yesterday trying a law suit and that he had two more cases to dispose of before he would be ready to take the stump.

NO FAITH CURE ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway. Whether You Have Faith in Them or Not.

More faith will not digest your food, nor will not give an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and pepsines necessary to the digestion and assimilation of all wholesome food. Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 98 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, plenty of wholesome food well digested. It is not what we eat, but what we digest that does us good.

GOV. SCOFIELD AND THE SOLDIERS

Fond du Lac Commonwealth—The

soldiers of Wisconsin owe Gov. Scofield

their everlasting gratitude for his per-

sistent efforts in their behalf. The man-

ner in which he has prodded the war

department in the interest of the First,

Second and Fourth regiments is as

amusing as it was successful. From

the very beginning of the war to this

day the governor has manifested an un-

selfish interest in the welfare of Wiscon-

sin soldiers. It would seem, judging

from the general press reports, Gov.

Scofield is the foremost of all the gov-

ernors in the Union, in his anxious de-

sire to render the men all the helpful

service in his power.

His pounding away at the war de-

partment until it consented to the re-

moval of the First Wisconsin from the

malarial camp in Florida, to Wiscon-

sin for muster out, was a specimen of

the Grant-like determination and jus-

tice that reflects great honor on Gov-

ernor Scofield. And then the way he

worked the war department in getting

the Second regiment out of Porto

Rico and hurrying the boys home,

when General Miles wanted it other-

wise, illustrates the deep sympathy and

splendid courage of the governor.

It would not be out of order, we

think for Company E boys at the

banquet in their honor to vote an ex-

pression of thanks to their best friend,

the governor, for his unremitting labor

for their advantage.

TARIFF FOR THE FARMER

No class of people receive more direct

benefit from a wise tariff than the farm-

ers and wool growers. When the farm-

er is prosperous we all prosper: when

the farmer sees hard times, every other

business and trade feels the same de-

pression. Under the Wilson tariff bill,

the imports of wool, shoddy, and wool

waste, amounted to 400,000,000 pounds,

in one year. In the year 1898, under

the Dingley law, the total imports

were but 135,000,000 pounds. Under

the Dingley wool American wool raisers

have produced and marketed 327,000,000

pounds more wool than they produced

when the Wilson law was in effect. This

means that the American farmer, not the

foreign wool raiser, received the money,

and spent it at home where it benefitted

the whole people. The Dingley law

leads the manufacturer to buy his wool

at home, while the Wilson law led the

manufacturer to buy his wool abroad.

Theodore W. Goldin is particularly

well equipped to fill the office for which

he is the republican nominee. He is

widely known as an attorney. The office

of clerk of the court is really a profes-

sional one. Mr. Goldin has filled it to

the complete satisfaction of all. The

people realize that Rock county cannot

afford to lose the services of men like

Mr. Goldin—they should be encouraged

to remain in the county's service. Hence,

a record breaking majority for Mr. Gol-

din may confidently be expected.

The American association of manu-

facturers has extended a vote of thanks

to President McKinley, saying: "To

you are due the thanks of all the people

of this united nation for your direction

of their affairs under the trying circum-

stances of the past few months."

While American manufacturers are

sending more goods to Europe every

day, the American people are buying

less and less in the foreign markets.

"The robber tariff" is responsible.

F. P. Starr, of Afton, the republican

candidate for county clerk, is just the

man for the place. He has had valuable

experience, and will make a splendid

official.

"American Trade" says the oppor-

tunities for the sale of American goods

at Santiago have been much overesti-

mated or exaggerated.

NEW ELEMENT IN ART OF WAR

Smokeless Powder Makes Training of

Soldier's Ear a Necessity.

Maj. J. M. J. Sanno, inspector general

of the department of the Dakotas and

the lakes, who is stopping in town,

has given the subject of modern im-

plements of war careful considera-

tion. "The war has shown one thing,"

said he, "and that is that future war-

fare will be dependent upon the ear

and not upon the eye. The use of

smokeless powder has placed a new

element in the art of war. Hereto-

fore the smoke of the enemy's gun has

been depended upon to give location

of their forces, but now that is left

entirely to the ear. This has been

most plainly demonstrated. But the

training of the ear can be accomplish-

ed to a very delicate point. Just as

a musician's ear is trained to distin-

guish the slightest changes in tone,

so will that of the future soldier be

THEATRICAL MAN PUT BEHIND BARS

COMPANY LEFT WITHOUT THE PROPERTY BOSS

Andrew Quirk, Of Chicago, Says He Was Arrested Because He Wanted To Resign—Says That "Pair Of Jacks" Is Doing Well Under Poor Management.

There was a fourth act to the "Pair of Jacks" entertainment at the Myers Grand last evening that was not on the program.

It came to a termination this morning in the arrest of Andrew Quirk, the property man, who was lodged in jail because, he says, he refused to leave the Grand Hotel when so ordered by Landlord J. F. Swesney.

That there was more to the show last night than what the audience saw there is little doubt. No sooner had the company landed in town yesterday morning than trouble began to push itself to the front. In each engagement Manager Tuttle seemed to play the leading role, and that he carried out his part of the program there is no denying. At the jail this afternoon a Gazette representative interviewed Quirk, whose business with the show is to look after all property belonging to the company and its members. The prisoner is a bright appearing man of some twenty-five years, who no doubt has seen much of the world. He said: "I left Chicago two weeks ago with the 'Pair of Jacks' company, and we opened to good business in Bloomington, Illinois. From there we worked west and despite the poor judgment on the part of Manager Benjamin Tuttle, he enjoyed a good business in every town. When we arrived in Janesville Tuttle was drunk, as he has been for several days past, and what should he do but jump all over me because he thought I was siding with his wife in her troubles with him. Last night on the stage just before the curtains went up what should he do but go to his dressing room, drag his trunk out, and throw it out of doors. He acted like an insane man, and even broke his umbrella over his knee. Mrs. Tuttle would tell me to do this and that, and that, and then he would tell me to do another. This morning I made up my mind to quit, and when I told him so at the Grand Hotel he ordered me arrested and Officer Brown was called in and performed what he supposed to be his duty. If he had arrested Tuttle instead of me he would no doubt have taken a step in the right direction."

When the show left Janesville this morning for Watertown several of the members were on the verge of leaving and returning to Chicago, and all because they alleged that they could not get along with Manager Tuttle.

"A Pair of Jacks," as it now stands, looks like a poor hand to draw to.

THE MORTALITY AMONG HOGS

Thousands of the Animals Have Died of Cholera Recently.

In the neighborhood of 1,150 hogs were shipped from this city last week to the Chicago market. George Charlton, the well known live stock buyer, says that undoubtedly this large shipment was mainly owing to the hog cholera scare that still prevails in many sections of the county.

The number of hogs that have died in Rock county during the past few weeks as the result of cholera will reach into the hundreds.

Got \$10,000 from Her Skirt

Eli Potter, a prominent woman suffragist, was robbed of \$10,000 by highwaymen in the outskirts of Kansas City, Kan., last Saturday night. A few months ago the Potters' residence was destroyed by fire and they received \$10,000 insurance money. Mrs. Potter, who does not trust in banks, sewed the money into the linings of her dress. She was driving in the outskirts of town last night when a man stepped out from the roadside and grabbed her horse. Another man dealt her a stunning blow on the head. When she recovered consciousness she found a sack drawn over her head and the highwaymen were tearing at the cutting her skirts. The skirt lifted up in their search until the amount of the treasure had been found. Mrs. Potter believes the robbers are negroes.

RECEPTION AT MRS. M'KEY'S

Lieutenant and Mrs. Richardson Are Entertained and Meet Friends.

At the spacious Park Place home of Mr. and Mrs. George M. McKey, last evening a pleasant social function was given in honor of Lieut. and Mrs. L. P. Richardson, who are soon to take their departure for their home at Fort Leavenworth, Kas. Some twenty-five couples were present, and in one of the parlors the guests were received by Mr. and Mrs. McKey and Lieut. and Mrs. Richardson.

Following the reception guests indulged in the playing of six-handed euchre, the prizes being awarded to Mrs. F. S. Sheldon and Mrs. Rager, Jr. Tempting refreshments were next in order, and at midnight what proved to be one of the most enjoyable social events of the season, came to a close.

The Kaiser's Many Decorations.

A Berlin newspaper says that the orders of decoration borne by the emperor of Germany are worth over 1,000,000 marks (a little over \$230,000). His principal and most valuable decorations are the insignia of the Black Eagle, the Order of St. John, of the Garter, and of the Toison d'Or. In all he has over 200 crosses, stars, badges, and other insignia. It is said that he takes them with him on all his journeys and voyages, his hunting expeditions excepted. The coffer containing the decorations is in the constant care of an officer of the court, who accompanies the kaiser everywhere. On returning to Berlin the coffer is locked up with the crown jewels in the treasury.

Not Brutally Meant.

When Sir William MacCormac arrived in consultation on the Prince of Wales' recent accident the prince, with his usual optimism, looked up and said, "Well, after all, it is not so bad as it might have been. I might have broken my leg." "I wish you had," replied the president of the College of Surgeons, whose technical knowledge made him, of course, aware of the fact: which his royal highness has now learned, that a broken patella is a far more difficult thing to repair thoroughly than a broken leg.—Westminster Budget.

1-5 THE COST OF MEAT

Rich Cream WITH Grape Nuts

A chaarming dish.

VALUE OF CREAM

As Compared With Meat

One of the most valuable items in one's dietary is good, rich cream. The remark is frequently made that "cream is too expensive to use freely." Some people think they must have meat every day at 10 and 25 cents per pound and do not realize that 5 cents' worth of pure cream for breakfast will do more to put on flesh than 25 or 20 cents' worth of meat.

An ideal portion of breakfast is that obtained from say, four teaspoons of Grape-Nuts and a little pure, thick cream, either cold or hot.

Jury in Kidn Case Secured.

Oshkosh, Wis., Oct. 19.—The jury that will listen to the evidence and try and determine the guilt or innocence of Thomas L. Kidd et al. will consist of eleven men. Twelve, the full number, apparently were secured, but at the last moment, however, the defense stated that it desired to challenge C. E. Follett. This juror is in the saloon business and has often discussed the strike with his patrons, according to his own statement. Adjournment was taken to look into the matter, but the attorneys for the state and for the defense agreed to try the case with but eleven jurors, Juror Follett having been challenged and excused.

Will Settle Differences.

St. Louis, Oct. 19.—Another conference was held Tuesday between employees and officials of the Missouri Kansas & Texas railway over existing grievances. It is stated that a basis of agreement has been formulated. Another meeting is set for today, when, it is believed, all troubles will be adjusted. The differences have at no time reached an acute stage, according to a statement given out at the office of the vice president and general manager of the road. Assistant Chief Constructor Garrettson has been seeking to adjust matters since Sept. 20, falling in which he summoned the heads of the other railway organizations affected.

Injunction Against Strikers.

Cleveland, O., Oct. 19.—Judge Hammond of Tennessee, sitting with Judge Augustus J. Ricks in the United States circuit court, Tuesday issued a sweeping injunction against the strikers of the American steel and wire works. The former employees of the company are by the decision enjoined from interfering with the operation of the company's plant. Judge Hammond overruled the motion of the defendants to have the case dismissed and then submitted a statement of facts brought out in the evidence and read his opinion.

To Connect Lakes.

Lansing, Mich., Oct. 19.—D. C. Denison, who says he represents a number of Chicago capitalists, has written the secretary of state for advice about forming a corporation to connect Lakes Michigan and Superior with a canal, thereby to shorten the travel between these lakes by several hundred miles. The plan is to construct the canal from the bay of Denoquet across the counties of Schoolcraft and Alger to Lake Superior, a distance of about thirty-five miles.

Snowing Hard in Missouri.

Kansas City, Mo., Oct. 19.—Freezing weather continues in Missouri, Kansas, Iowa and Nebraska in many places.
